The aim of the ARISE project was to promote the social and entrepreneurial capacities of migrant women. After nearly 2 years of intensive project work in the six participating European countries, it is time to present and discuss the project outcomes. We are happy to welcome you to Hannover!

In the ARISE project, partner organisations from 6 European countries were developing and implementing 20 workshop modules for migrant women who wanted to start their own businesses. In local enterprise events, the women presented their business plans. During this conference, it will be possible to learn more about the project outcomes and to meet the young entrepreneurs in a market of opportunities.
